EDUCATION

Pune Institute of Computer Technology	Pune, Maharashtra
B.E. in Electronics and Telecommunication; CGPA: 8.56	2023 –Present
Vidyamandir Junior College	Miraj, Maharashtra
XII (State Board); Percentage: 72.83 %	2021 – 2023
Deshbhakt Nathaji Lad Vidyalaya	Sangli, Maharashtra
X (State Board); Percentage: 98.40 %	2020 – 2021

PROFESSIONAL EXPERIENCE

Data Analytics Intern [Pune Institute of Computer Technology, Pune]	Feb,2026-April,2026
- Handled multi-source COVID-19 datasets using Python, performed cleaning, normalisation, and feature engineering. - Developed interconnected Tableau dashboards with cross-filter actions, enabling spatio-temporal, demographic, and testing infrastructure analysis for Covid-19. - Derived actionable insights on age distribution, regional concentration, and testing bias, highlighting the correlation between lab infrastructure and reported cases.	

PROJECTS

PollutViz	Python, Folium, Flask, Pandas, React, Tailwind CSS	🌐
- Built a Python data processing pipeline to clean, normalise, and analyse multi-sensor CSV data, generating separate interactive pollution heatmaps per parameter using Folium. - Developed a Flask web application enabling users to visualise and download generated heatmaps as PNG files, making environmental insights accessible through a browser-based interface. - Engineered a mobile IoT hardware setup using ESP32 microcontroller integrated with DHT11, MQ-7, MQ-135, DSM501A, and NEO-6M GPS sensors to capture real-time geo-tagged air quality data. - Designed and fabricated a custom setup enclosure using Autodesk Fusion 360 and 3D printed in PLA.		
Edu-Track	React.js, Node.js, Tailwind CSS, MySQL	🌐
- Developed a full-stack attendance management system, reducing manual attendance processing time by ~40% for faculty across multiple batches. - Implemented secure authentication and role-based access control in Node.js using JSON Web Tokens (JWT), enforcing separate permissions for 3+ roles. - Designed normalised MySQL schemas to reliably store and query attendance records for 900+ students and 20+ courses.		

SKILLS

Languages: Python, SQL, JavaScript, C++, C

Libraries: Pandas, NumPy, Scikit-Learn, Matplotlib, TensorFlow

Web Technologies: React.js, Node.js, Express.js, Flask, Tailwind CSS

Databases: MySQL, MongoDB

Tools: Git/GitHub, Postman, VS Code, Cursor, Tableau, Microsoft Excel

Coursework: Data Analysis, DBMS, OOP, DSA, Computer Networks, Data Cleaning, Data Visualisation, Statistical Analysis

ACHIEVEMENT

NTSE Scholar (National Talent Search Examination 2021): State Rank 17
